Cité des Climats et vins de Bourgogne: the winner of countless awards!

Bourgogne, 17th November 2023

Ever since its opening in Chablis, Beaune and Mâcon last spring, the Cité des Climats et vins de Bourgogne has been showered with awards. Architecture, scenography, national and international competitions... the Cité takes stock of the various awards it has received in recent months.

► A European award for the Cité des Climats et vins de Bourgogne project

The Cité des Climats et vins de Bourgogne was awarded the “Best Wine Museum” prize on European Wine Day – the 27th October – in Toulouse. The award was presented by the *Iter Vitis* association, which aims to reward projects that promote the development of wine tourism, as well as the preservation and communication of wine culture across Europe.

► Chablis and Mâcon rewarded for their scenography

ATELIERS ADELIN RISPAL, the scenographer responsible for the Cité in Chablis and Mâcon, received a double distinction at the [Muse Design Awards 2023 in New-York](#) last September:

- **SILVER WINNER** in the “Interior Design – Exhibits, Pavilions & Exhibitions” category
- **SILVER WINNER** in the “Interior Design – Museum” category

A reward in perfect harmony with the views of the visiting public on this innovative scenography, which retraces by layers the history of the Bourgogne vineyard from North to South.

The **Emmanuelle Andreani Architectes** firm has already received several distinctions for its construction, which represents a vine's winding tendril, made from organically sourced materials.

The awards it has won to date include:

- **Green Good Design Awards 2023**, Chicago (USA), in the "Architecture and durability" category
<https://www.good-designawards.com>

- **BLT Design Awards 2023**, Lucerne (Switzerland), in the "Culture" category, and honourable mention in the "Sustainable Architecture" category
<https://bltawards.com/>

- **The Plan Award 2023**, Milan (Italy), finalist in the "Culture" category
<https://www.theplan.it/>

- **LIV Hospitality Design Awards 2022**, Budapest (Hungary), in the "European Architecture" and "Event Space" categories, where it was the jury's top choice.
